B6

She's sorta right. We post as much video as we can, and bat 1.000 on domestic events. Tougher on overseas events since we don't have the resources abroad with us that we have here at home. We held a meeting with the web & broadcasting folks today to talk about this, and came up with a few ways to bolster our road video.

But generally speaking, it's a huge priority for us all to post video whenever possible.
