Subject: Update

Some cats and dogs:

1. Talked to Denis about EU summit issue and Saakashvili. He said he would work both of them.
2. Hikers meeting was interesting and will fill you in Monday. Bottom line – we are actively working a number of the options, including the British option.
3. Saw Kurt this evening to discuss a potential Asia speech in Hawaii and he was focused on Jim again. I know you spoke with him and assume he gave you the same analysis.
4. Sent you updates on Libya – it played as we expected...a demand for a complete settlement freeze including Jerusalem. Our press line will be to gloss over that and focus on the top line: We have Arab support for efforts to create conditions to continue the negotiations i.e., no collapse. You will receive tomorrow morning two Plan B documents, one from the Mitchell team and one from Dennis Ross.

Will continue to report this weekend.
