B6

- Corker is still being savaged by Heritage activated county commissioner level START opponents -weird, not exactly grass roots - and there's not nearly enough pushback (need national security message.)

- Kyl has a an op-ed tomorrow and doing news shows Sunday. They expect McCain, Durban to join him - The opponents are still pushing modernization and now this new thing alleging the admin cutting "secret deals" with Russia on defenses

- they really need help with pushback - including the kinds of points Gen Adams was highlighting about the breakthroughs with allied/Russia agreement on missile defense in Lisbon - and some urgent help in Tennessee - can we get Castellaw, others?
