**Cc:** H; Sullivan, Jacob J  
**Subject:** (SBU) RE: Follow up to S-Morjane call

SBU

Jeff, prior to the change of government we had already delivered ground surveillance radars (procured under 1206 funds) and night vision goggles. Perhaps there is a lack of communication between the political side of the house and the military experts (although I am a bit surprised, since Morjane was previously the Defense Minister).

The request [redacted] We just discussed the issue on a long conference call [redacted]  
[redacted]

B5

Our defense attaché, who was on the conference call, will follow up with the Ministry of Defense on Monday (as I discussed with Morjane).

Regards,

Gordon

Gordan Gray, our Amb to Tunisia (cc'ed here), talked to Morjane on this and other issues for 90 minutes after your call. He's following up tomorrow.

[redacted] I have to say that the second request  
in particular sounds strange, but maybe the details you can get will make sense of it.
