And, what's your latest prediction on health care? Are you worried about the lack of cost controls in the current bills? I had dinner w a bunch of women Senators, including Snowe, who, led by Feinstein, Murray, Cantwell, Lincoln, and McCaskill all expressed their concerns. Boxer and Feinstein were also vocal about the effects on Calif due to Medicaid cuts. No one thought the Senate would be near done before T'giving at the earliest. So, what's likely to happen?

Take care. H

Hillary,

I didn't want to bother you when you were doing so much overseas so I'm sorry I'm late in giving you an update.

I decided to go to CAP. I really thought about what you said - about focusing on what I want to do every day. [redacted]

Anyway, I really appreciate you taking the time to advise me - especially with everything you are juggling! I feel very fortunate to have such an amazing mentor.

Thank you Hillary

Neera
