Working on this now				
All				
I connect this information with Tim	Callahan on the gro	ound in Haiti (Ma	ork he is head of the D	Disaster Assessment team).
He is working this issue.				
I understand from Susan that there		• •	• •	nit the ground since last
night; I am assuming the opportunit	y to address first to	ood and water ex	(ISTS.	
Whatever can be done will be done				•
We should wait for updates as avail	able with priority b	peing action over	updates.	
Thanks all.	•
