B6

Sir,
I just got off a Tandberg with LTG Gardner.

EUCOM is working this issue.

1. Still waiting for UAE government to officially approve mission change.
2. There are weapons storage problems at their current base. Working a waiver or move them to another base.
3. This is an FMS issue EUCOM is working with JS, J4 and DSCA.

It's all tracking as fast and urgently as possible by the right people.

V/r,
Greg

What the UAE For Min said was they wanted US bombs so we'll have to work that on DoD circuits (Centcom presumably)

We'll also go mil-to-mil via force gen, JFC Naples, and JTF and push them to use their own air to ground ordnance in the interim

Suggest you guys work the political side up there

As to how long ... inshallah, soon

Best,
Jim

Gather you and Clinton talked about this. When do you think they will be able to start?

Any way to get the UAE suggestion that they will contribute aircraft for strike missions firmed up and announced by the SYG?
