Denis,

As we discussed, I pressed Jim Miller to arrange SecDef call to Karzai this evening (California time), before Kabul event tomorrow. I stressed that message could be brief and straightforward -- we're committed to MOU, need to work through concerns, need to avoid doing/saying things that will make that harder. He said by end of call that he agrees on timing and message and will do his best. We'll also follow up with Jeremy Bash.

Separately, Sinirlioglu just called me [redacted] We're following up with
Emb Baghdad to see what we can do [redacted]
