Cheryl- I really don't want to disturb you on vacation but also wanted to make sure you knew that I've told the White House (Pete and Nancy) of my decision to resign to return to my family in DC. I will be sending a letter to Secretary Clinton but wanted you to know right away. I am enormously grateful for your willingness to explore options for me to stay at State and in general for the fantastic experience of working for Secretary Clinton and with your remarkable team. I stand ready to help you or her in any way I can in the future. If you do want to talk, I'll make myself available whenever its convenient for you. Many many thanks for everything, [REDACTED]
