B6

Hillary, Hope you had a happy birthday! Carville tells me he spoke with Rahm who spoke with Axelrod who insists that NV and IA are done in Obama's favor. My view is always, maybe. Note the asterisk on our election night party invitation. You're more than welcome if you're not in Algeria or Litchfield County. (This year, election day falls on my birthday. I'm always a year behind you.) Will keep you informed about things in pipeline, should start rolling out through early this week. Hurricane a distraction and hindrance; can you negotiate with it? xo Sid
