Subject: China on CoC for SCS

B6

[redacted] From todays MFA briefing.

B5

"China maintains its desire to sign a code of conduct in the South China Sea when the timing is right, and will continue to make efforts to reach an agreement, Liu indicated. China will host a senior officials meeting "in the future" on the formulation of a code of conduct. (Note: Liu gave no further details on the timing or attendees for such a meeting)."
