Subject: RE: Potus travel

Not sure if you heard from AMS, but Hoge has given us til Monday. She and Lissa have been going back and forth today; she said she would send you a clean version tomorrow am which will give you tomorrow and the weekend to line edit, etc.

A few other items:

I talked to [redacted] about UNGA. [redacted]
[redacted] I'll follow up.

B5

I also talked to [redacted] about START -- engaging the former presidents and other Republicans and generally driving to drive an effective media campaign. He said he would follow up.

[redacted]

The MEPP team is going to recommend that you make a handful of calls to folks like Berman and Kerry to enlist them on the settlement moratorium. I'll keep you posted on that.

[redacted] You'll get a Framework Agreement paper and the matrix tomorrow evening, as well as a notional scenario. Other materials will come in Monday night.

Mitchell and I agree that a call Monday and an intensive session Tuesday is the best way to handle the prep. Let me know if you have a different view.

Separately, I'm going to send you a proposed list of intel deep dives for the fall for your review and approval.
