Extended Afghan mission to include 1,000 staff

Last Updated: Monday, November 8, 2010 | 2:14 PM ET

CBC News

Canada will keep up to 1,000 troops in Kabul as part of a plan to extend the country's non-combat mission in Afghanistan after 2011, the CBC has learned.

The troops will include 750 trainers and at least 200 support staff, according to senior government sources.

They'll work outside of combat at a training academy or large training facility for Afghan soldiers and police officers, the CBC's James Cudmore reported.

More to come...
