**Subject:** Re: Glad you're there

Questions arising from press reports:

Why can Israel set up a full field hospital w operating rooms and the US military can't/won't and only offers surgery on the Carl Vinson which has to fly patients over and even flew Sanjay Gupta there to do an operation since they did not have a neurosurgeon?

If we are going to start air drops of food from C-130s as Jim Jones advocates, do we have Haitians on the radio explaining that's what we're doing and asking that people proceed calmly because a lot of meals will be dropped every night?

Have the Haitians agreed to more food sites yet?  
Are our troops starting to provide more security at food and medical sites? Will they stay at Paul's hospital overnight?

B6

Just leaving the hospital.

Really rough and sad.

Mark Paul and others doing the Lord plus 10 work

I sent Keen an email re no security.

Troops just arrived so the hopefully they will be able to keepb doctors there tonight around the clock.

Cdm
