Short meeting today:

**Wikileaks** Story is prompting press inquiries about whether US is planning any investigation of alleged Iraqi atrocities. L reports DoD firmly against any new investigations.

**Brazil Elections** Set for Sunday; most polls still put Rouseff in big lead. We'll put out spot report Sunday night and tee up appropriate congratulatory phone calls and press statements.

**Indonesia** Embassy announced \$2M in OFDA relief for post-volcano assistance; Embassy still trying to assess post-tsunami impact before proposing specific assistance.

**Congress** Rich continuing to work New START strategy for lame duck. New calculation shows only 14 days left on clock for Russia 123; Rich is hopeful we'll have enough days in lame duck to accomplish that. Haiti funding should be ready to go by early next week. Rich briefing Hill on Iraq spending plan.
