So sad.

Have you heard from Kristy about tomorrow?

**Subject:** Death of NYT Reporter in Syria

Ops just called to report (via PA) that NYT reporter Anthony Shadid died today in Syria (exact location in Syria unknown at this time). Cause of death is believed at this time to be an asthma attack. Unknown if there was fighting in the area where he died or external contributing factors to the death. He was traveling with an AMCIT photographer, Tyler Bridges, who is with the body now in Turkey, heading to Adana. NEA is advising the Poles, and CA is reaching out to our embassy in Ankara and Consulate in Istanbul.
